MOUTH

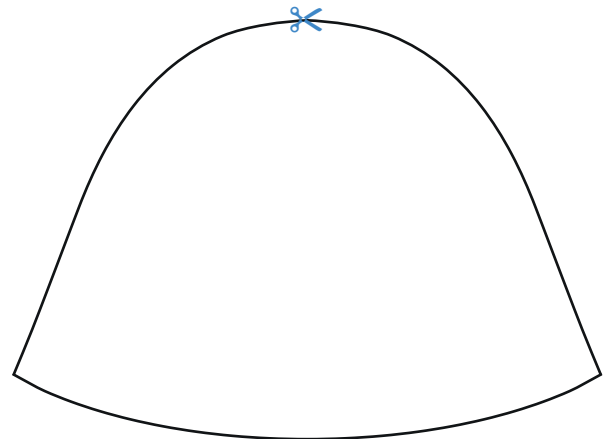

Roll out the paste to about 2 mm. Indent vertical lines with a mini palette knife or the back of a knife. Let the paste dry for a while - it needs to hold the shape well. Cut out the mouth. Roll a thin sausage. Stick it around the cut out part.

HELMET (front) - attach it after sticking on the mouth and the eyes, and before attaching the back part of the helmet.

HELMET (back) - attach it after sticking on the front part of the helmet and after attaching the head to the body.

Roll out the paste to about 1-2 mm. For tips on how to roll out the paste so that it doesn't move when cutting, go to step 131 of the ['Superhero' tutorial](#).
